Multi Brand Car Service

ADVANCED SCANNING TOOLS

We use advanced scanning tools which can diagnose faults in cars. These tools are capable of detecting all Electrical/Mechanical failures. They can also connect to the on-board computer to read live data.

We invest on the latest tools/technologies as we believe modern cars run more on electronic equipment rather than mechanical components.

TINKERING AND PAINTING

We use advanced equipment for dent pulling and welding. We also have Car-O-Liner which can be used to correct collision damages to the chassis/body panel - Authorised Service Centers usually undertake replacement instead of repair, thereby increasing the cost.

We use high quality paint materials and provide lifetime guarantee for the finish. The painting is done in a closed paint booth to achieve factory finish.

INSURANCE

We support all insurance companies - Cashless claims available for most of them.

MECHANICAL REPAIR WORKS

In our staff, we have expert mechanics who have real-time experience of over 15 years of diagnosing and repairing all kinds of mechanical/electrical faults including:

- 🔧 Periodic Maintenance
- 🔧 Suspension
- 🔧 Engine
- 🔧 Turbo System
- 🔧 Clutch Assembly
- 🔧 Gear Box
- 🔧 Steering Control
- 🔧 Engine Cooling System
- 🔧 Exhaust, etc.

A/C REPAIR

There's nothing more refreshing than climbing into a cool, air-conditioned car. Over time, however, A/C fittings become loose, O-rings, hoses and seals wear out – and your refreshingly icy blast stops.

This could be due to leaks in the A/C system. We specialize in identifying these leaks and arresting them before they could affect other parts. Get the refreshing blast back with **Expert Spanners**.
